"It is important to highlight that employees who work with the company for 10 years are recognized for their invaluable services with an award but also become shareholders of the company! In other words: each 10-year awardee becomes one of the company's owners. And it is this sense of ownership that further reinforces our people's commitment to Amalgamated Security Services and in extension to its clients. Combined with thorough selection and recruitment, socially responsible employment practices, best operational practices and ongoing trainings, this approach results in an unparalleled dedication of our workforce to the delivery of exceptional services. We are proud of each and every one of our awardees."

- Michael Aboud, Chairman/CEO
